

Rail Vision Announces Third Quarter 2023 Financial Results

November 24, 2023

RAANANA, Israel, Nov. 24, 2023 (GLOBE NEWSWIRE) -- Rail Vision Ltd. (Nasdaq: RVSN) ("Rail Vision" or the "Company"), a development stage technology company seeking to revolutionize railway safety and the data-related market, today reported financial results for the third quarter ended September 30, 2023.

Shahar Hania, CEO of Rail Vision, stated, "I would like to begin by expressing our heartfelt sympathies and condolences to all those who have been affected by the recent tragic events in Israel. Despite the difficult circumstances in our home country, I want to reassure our shareholders and stakeholders that Rail Vision's operations continue unabated. Our commitment to delivering innovative, safety-enhancing technology to the global rail industry remains as strong as ever."

"We reached another significant milestone in the third quarter with the successful completion of a pilot program with a leading US-based rail and leasing services company. This customer purchased one of our Switch Yard Systems this year and has been impressed with the results on extensive testing. We are now discussing plans with this customer to implement our technology on additional locomotives beginning as soon as Q4 2023. This is a testament to the reliability and effectiveness of our solutions in improving safety and efficiency in rail operations," continued Hania.

"In addition, we recently expanded our global footprint with a \$500,000 purchase order from a leading Latin American mining company received in October 2023," said Hania. "This contract demonstrates the trust that a growing number of customers worldwide place in our technology solutions. This new customer purchased a Main Line Advance Driver Assistance System (ADAS), equipped with high-end electro-optical sensors, machine learning algorithms and edge computing capabilities. Our ADAS solution provides operators with accurate and timely information, enabling them to make informed decisions and enhance the safety of train operations.

"As we move forward, we remain steadfast in our mission: to leverage advanced technology to make railways safer and more efficient. This belief drives every decision we make at Rail Vision, and we are committed to continuing to execute on this vision for the benefit of our customers, shareholders and stakeholders worldwide," concluded Hania.

Third Quarter 2023 & Recent Highlights

- In October 2023, the Company received a purchase order in the amount of approximately \$500,000 for a Main Line ADAS system and related services from a leading Latin American (LATAM) mining company. This Main Line ADAS system is expected to be delivered to the new customer during the fourth quarter of 2023. The LATAM mining company will benefit from Rail Vision's robust Main Line ADAS system which uses high-end electro-optical sensors, machine learning algorithms, and edge computing capabilities to improve the safety of train operations by providing operators with accurate and timely information to make informed decisions. Rail Vision will also provide supervision, guidance, and training services as part of the purchase order. This comprehensive approach ensures that the Main Line ADAS system is seamlessly integrated into the customer's existing infrastructure and operations, minimizing disruption and downtime during implementation.
- A trial was completed for a leading US-based rail and leasing services company that purchased a Rail Vision Switch Yard System during 2023. This new customer, which offers a suite of rail-centric services, including in-plant rail switching and material handling services, is expected to begin implementing Rail Vision's technology on additional locomotives during Q4 2023.
- On November 15, 2023, the Company effected a reverse share split of its ordinary shares at the ratio of 1-for-8, such that each eight (8) ordinary shares, par value NIS 0.01 per share, were consolidated into one (1) ordinary share, par value NIS 0.08. All references to share and per share amounts referred to herein reflect the reverse share split.

Third Quarter 2023 Financial Results

- Revenues were \$142,000 for the three months ended September 30, 2023, compared to \$202,000 for the three months ended September 30, 2022. Q3 2023 revenues were primarily driven by a US-based rail and leasing services company that purchased a Rail Vision Switch Yard System during Q1 2023 and completed its evaluation during Q3 2023.
- Research and development ("R&D") expenses, net for the three months ended September 30, 2023, were \$1,852,000, compared to R&D expenses of \$1,651,000 in the three months ended September 30, 2022. The increase in R&D expenses was primarily attributable to an increase in R&D employees and an increase in R&D equipment purchases.
- General and administrative expenses for the three months ended September 30, 2023, were \$1,050,000, similar to the general and administrative expenses in the three months ended September 30, 2022.
- Net loss for the three months ended September 30, 2023, was \$2,788,000 or \$0.93 per ordinary share, compared to a net loss of \$2,769,000, or \$1.39 per ordinary share, in the three months ended September 30, 2022.

• As of September 30, 2023, cash, cash equivalents and restricted cash were \$5.1 million.

About Rail Vision Ltd.

Rail Vision is a development stage technology company that is seeking to revolutionize railway safety and the data-related market. The company has developed cutting edge, artificial intelligence based, industry-leading technology specifically designed for railways. The company has developed its railway detection and systems to save lives, increase efficiency, and dramatically reduce expenses for the railway operators. Rail Vision believes that its technology will significantly increase railway safety around the world, while creating significant benefits and adding value to everyone who relies on the train ecosystem: from passengers using trains for transportation to companies that use railways to deliver goods and services. In addition, the company believes that its technology has the potential to advance the revolutionary concept of autonomous trains into a practical reality. Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act and other securities laws. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and similar expressions or variations of such words are intended to identify forward-looking statements. For example, the Company is using forward-looking statements when it discusses its commitment to delivering innovative, safety-enhancing technology to the global rail industry and remaining steadfast in its mission to leverage advanced technology to make railways safer and more efficient. Forward-looking statements are not historical facts, and are based upon management's current expectations, beliefs and projections, many of which, by their nature, are inherently uncertain. Such expectations, beliefs and projections are expressed in good faith. However, there can be no assurance that management's expectations, beliefs and projections will be achieved, and actual results may differ materially from what is expressed in or indicated by the forward-looking statements. Forward-looking statements are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the forward-looking statements. For a more detailed description of the risks and uncertainties affecting the Company, reference is made to the Company's reports filed from time to time with the Securities and Exchange Commission ("SEC"), including, but not limited to, the risks detailed in the Company's annual report on Form 20-F filed with the SEC on March 23, 2023. Forward-looking statements speak only as of the date the statements are made. The Company assumes no obligation to update forward-looking statements to reflect actual results, subsequent events or circumstances, changes in assumptions or changes in other factors affecting forward-looking information except to the extent required by applicable securities laws. If the Company does update one or more forwardlooking statements, no inference should be drawn that the Company will make additional updates with respect thereto or with respect to other forwardlooking statements.
