Rail Vision Announces Third Quarter 2022 Financial Results

RA'ANANA, Israel, Dec. 06, 2022 (GLOBE NEWSWIRE) -- Rail Vision Ltd. (Nasdaq: RVSN) ("Rail Vision" or the "Company"), a development stage technology company seeking to revolutionize railway safety and the data-related market, today reported financial results for the third quarter ended September 30, 2022.

"We continued to demonstrate our position at the forefront of an evolution in train safety during the third quarter," said Shahar Hania, CEO of Rail Vision. "The strong interest we generated from potential customers during InnoTrans in Berlin, Europe's leading rail conference, as well as SmartTransitWest in Denver, the go-to event for senior industry professionals in North America, provide us with a wealth of opportunities to launch new pilot programs with major rail operators globally. Our team is actively working to convert previously completed pilot programs into revenue-generating commercial contracts."

"Additionally, as our game-changing technology is used in more and more real-world settings, we generate an exponentially increasing amount of important data, collected through our cloud infrastructure, that empowers our team to further refine our technology solutions while uncovering potential new opportunities for growth," continued Hania. "With interest from potential customers in the United States, Australia, India, Italy, Taiwan, Korea, the United Kingdom, and more, my excitement for the future of Rail Vision has never been greater, and we look forward to delivering on our vision of ushering in a new era of rail safety."

Third Quarter 2022 & Recent Highlights

- Successfully completed initial testing under long-term pilot (LTP) with Rio Tinto Iron Ore ("Rio Tinto") for the AutoHaul® project, the world's
 first automated, long distance, heavy haul rail network, and extended pilot program to evaluate additional use cases.
- Received notice of allowance from the United States Patent and Trademark Office covering the Company's industry-leading, cutting-edge, artificial intelligence (A.I.) based technology, specifically designed for railways, and its ability to perform built-in, real-time tests of the optical sensor.
- Showcased Rail Vision's AI-based solutions at InnoTrans 2022 in Germany, generating strong interest from potential customers.

Third Ouarter 2022 Financial Results

- Revenues for the three months ended September 30, 2022, amounted to \$202,000, due to the completion of the LTP with Rio Tinto as detailed above
- Research and development ("R&D") expenses, net for the three months ended September 30, 2022, were \$1,651,000, compared to the expenses of \$1,683,000 in the three months ended September 30, 2021.
- General and administrative expenses for the three months ended September 30, 2022 were \$1,050,000, compared to \$703,000 in the three months ended September 30, 2021. The increase is primarily attributed to increase in professional services related to the Company being a public company and an increase in share-based compensation.
- Net loss for the three months ended September 30, 2022 was \$2,769,000 or \$0.17 per ordinary share, compared to a net loss of \$2,638,000, or \$0.28 per ordinary share, in the three months ended September 30, 2021. The increase in the net loss is attributed mainly to the increase in general and administrative expenses as detailed above.
- Rail Vision ended the third quarter of 2022 with \$10.4 million in cash and cash equivalents, compared to \$1.6 million as of December 31, 2021.

About Rail Vision Ltd.

Rail Vision is a development stage technology company that is seeking to revolutionize railway safety and the data-related market. The company has developed cutting edge, artificial intelligence based, industry-leading technology specifically designed for railways. The company has developed its railway detection and systems to save lives, increase efficiency, and dramatically reduce expenses for the railway operators. Rail Vision believes that its technology will significantly increase railway safety around the world, while creating significant benefits and adding value to everyone who relies on the train ecosystem: from passengers using trains for transportation to companies that use railways to deliver goods and services. In addition, the company believes that its technology has the potential to advance the revolutionary concept of autonomous trains into a practical reality. Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act and other securities laws. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and similar expressions or variations of such words are intended to identify forward-looking statements. For example, the Company is using forward-looking statements when it discusses opportunities to launch new pilot programs, uncovering potential new opportunities for growth and interest from potential customers. Forward-looking statements are not historical facts, and are based upon management's current expectations, beliefs and projections, many of which, by their nature, are inherently uncertain. Such expectations, beliefs and projections are expressed in good faith. However, there can be no assurance that management's expectations, beliefs and projections will be achieved, and actual results may differ materially from what is expressed in or indicated by the forward-looking statements. Forwardlooking statements are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the forward-looking statements. For a more detailed description of the risks and uncertainties affecting the Company, reference is made to the Company's reports filed from time to time with the Securities and Exchange Commission ("SEC"), including, but not limited to, the risks detailed in the Company's annual report on Form 20-F filed with the SEC on May 16, 2022. Forward-looking statements speak only as of the date the statements are made. The Company assumes no obligation to update forward-looking statements to reflect actual results, subsequent events or circumstances, changes in assumptions or changes in other factors affecting forward-looking information except to the extent required by applicable securities laws. If the Company does update one or more forward-looking statements, no inference should be drawn that the Company will make additional updates with respect thereto or with respect to other forward-looking statements. References and links to websites have been provided as a convenience, and the information contained on such websites is not incorporated by reference into this press release. Rail Vision is not responsible for the contents of third-party websites.
